

Creon Galor is a Multi-mode WiFi, Zigbee, Bluetooth gateway. It supports all kinds of smart Zigbee sub-devices, such as wall switch, PIR human movement sensor, temperature and humidity sensor, curtain motor, etc. It is a core device of the Zigbee network. Zigbee devices are added to the network through the gateway to communicate with other Zigbee devices. The gateway connects to the router through the network cable to realize communication with the cloud and mobile app. The app can view and control Zigbee devices.

Key Points

- App Control.
- Multiple Protocol support.
- Standard: IEEE 802.15.4.
- Frequency: 2.4 ~ 2.485GHz.
- Voice control.
- Lighting, Security, Intercom, Sensor etc in single platform.
- Schedule setting-Free your fingers.
- Wide transmission distance.

Specifications

- Power supply: 5V1A.
- Wireless communication protocol: 2.4G wireless & Zigbee & BLE & Mesh.
- Open area transmission distance: 100m to 200m.
- WiFi+Zigbee+bluetooth protocols.
- Plastic Material.
- Receiving sensitivity: -102dBm, PER<10%.
- Transmission rate: 250kbps.
- One Button Control-Scene setting.
- Size(LxWxH)60mmx60mmx15mm.
- White Finish.
- Unlock your door remotely modify passcodes and E-keys anytime, anywhere.
- Working temperature: -10~55°C.

Installations

Wall/ceiling/Table top mounting.

Warranty

One year limited warranty against defects in manufacturing.
